

### DAILY CLEANING (Bucket) Professional

**DESCRIPTION:** **DAILY CLEANING** is a water-based product designed for the daily maintenance of waxed floors, providing greater durability and shine to the wax layers. It is fully compatible with polymeric waxes previously applied to floors. Cleans and removes dirt from tile, ceramic or marble floors. It is a 2-in-1 product because it has the property of acting as a cleaner to remove dirt and polish floors simultaneously, therefore, avoiding the purchase of more cleaning products. It is also recommended for use on tile or marble surfaces, etc. **DAILY CLEANING**, it is effective in the spring, summer and autumn months and is very easy to use. It can be applied manually with a cloth (see recommended dilutions). It does not produce contaminating vapours and its minimal amount of foam does not allow the formation of bubbles and does not leave marks or lines on the floors, ensuring uniform cleaning. Furthermore, it is a controlled evaporation product.

### SOUNDS GOOD (Scrubber) Professional

**DIRECTIONS;** **SOUNDS GOOD**, is a water-based product formulated with low foam and designed for the daily maintenance of waxed floors using scrubber machines, providing greater durability and shine to the wax layers. It is fully compatible with polymer waxes previously applied to floors. Cleans and removes dirt from tile, ceramic, or marble floors. It is a 2-in-1 product because it has the property of acting as a cleaner to remove dirt and polish floors simultaneously, therefore, avoiding the purchase of more cleaning products. It is also recommended for use on tile or marble surfaces, etc. **SOUNDS GOOD**, is effective in the spring, summer, and autumn months and is very easy to use. It can be applied manually with a cloth (see recommended dilutions). It does not produce contaminating vapors, and its minimal amount of foam does not allow the formation of bubbles and does not leave marks or lines on the floors, ensuring uniform cleaning. Furthermore, it is a controlled evaporation product.

### NEUTRASALT - B - 680 (Bucket) Professional

**DESCRIPTION:** **NEUTRAL SALT - B680 (Bucket)**, is a water-based product specially developed to clean and remove salt stains from floors in the winter months. It is a 100% water-miscible product, and is 100% biodegradable. Its active ingredients penetrate and completely dissolve stains when high amounts of salt are used to melt snow. Does not damage waxed floors. **NEUTRAL SALT - B680 (Bucket)**, can be used manually diluted in a bucket of water, with a mop, applied directly to the surface to be treated. It has 2 main functions: cleans and removes dirt and at the same time removes salt stains used in the winter, leaving the floors completely shiny. This product does not saturate easily, unlike other cleaners on the market. It is safe to use on vinyl floors, concrete, polished granite, ceramic, marble, etc. 80 cc of cold or hot water can be diluted in a 4 or 5 gallon bucket of water, which guarantees high performance and savings in money and time in cleaning processes.
